

Capital Region Water (CRW) Technical Meeting
Thursday, July 23, 2020, 2:00 PM
Agenda

1. CRW – To Provide Demonstration/Overview of Modeling Effort
2. All - What EPA Needs for an Approvable Long-Term Control Plan – Per the 1994 CSO Policy:
 - The LTCP must provide a demonstration of the CSO volume capture percentage that has been determined through the cost-benefit analysis process.
 - The Plan must demonstrate how CRW will meet 85% capture system-wide.
 - The Plan must describe how CRW will meet water quality standards.
 - The Plan must include an implementation schedule.
3. All - Priority CSO Sewershed Projects
 - When does CRW plan on initiating these projects?
 - How long will these projects take?
4. Next Steps/Action Items
